Piano Time 2012 is a new adventure to bring artists, musicians and community together for an interactive experience. The pianos were donated to the cause. Artists and musicians were selected from a Call for Artists, a collaborative committee of City staff, musicians, and artists. Prosser Piano staff and community set the plan in motion, and numerous local businesses enthusiastically agreed to participate, making this all-August project a success. We hope you enjoy looking, listening and performing.
